I beleive it is fair and just to have choices. No choice protects monopolistic entities and is simply un-American. I benefit from listening to XM Satellite Radio and the broad array of choices it provides, including its traffic and weather channels. XM radio provides unique, quality listening options that are not available elsewhere. I pay for these services and it should not be up to the National Association of Broadcasters to dictate what I am permitted to purchase and hear. I strongly urge the FCC to reject the NAB's petition 04-160 and to support XM radio's ability to provide the kind of programming that its listeners like myself demand and deserve.

Cordially,
Phillip Lusco
